**Subject:** Weekly Update Tonight - Thursday 5PM US Mtn Time

## Dakota Matrix Minerals

**Feb. 26, 2015**

Hi Folks,

[Our Weekly Update is tonight at 5pm US Mtn Time.](#)

We are back from Tucson with a lot of rare species. Many of them are one-of-a-kind and highly sought after species and new IMA species. In the coming months we will post most all of these in our weekly updates.

[Click Dakota Matrix Minerals to see the New Additions at 5pm](#)

Of note, I have rescheduled the Pegmatite Textures & Habit Special Edition. It's a tricky one and I am still in the process of acquiring specimens, mostly from the pegmatite province of the Black Hills. I also postponed or even canceled the Mendip and Merehead Special Edition in order to do further study on the specimens I have. It's a weird locality. If you have good, well identified specimens I am willing to buy them.

I picked up several **Phosgenites from Monteponi**, which was recently published in the Mineralogical Record. These were acquired from **Renato Pagano**, who wrote the article. These will be posted in an upcoming Special Editions, probably in the next 3 weeks.

Please remember the following:

1. If you are a registered user, **you have the power** to know ahead of time if a certain mineral will be posted. Just fill out your **WANT LIST**. Go to "[My Account > Lists > Want Lists](#)" and fill out the blanks one mineral per slot. When one of these minerals, on your list is due to be posted, you will get an email notice. You will know ahead of time...usually same day... You need to be a registered user.
2. Remember, you do not have to be logged in to order. You can email me or call me (605) 718-9130. Although I'm usually screwing off and not answering the phone after preparing an update. Ordering online through the cart, however, is the surest way of getting your specimens.

Thanks!

Tom
