Subject: [MSA-Announce] Apr 2015 (v100 n4) AmMin online, short course, pubs, announcements, meetings
Attachments: Untitled attachment 00160.txt

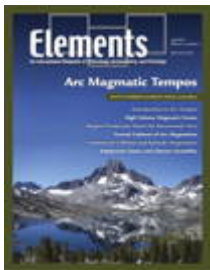

The **April 2015 (v100 n04) *American Mineralogist*** is online and in the mails. Among the articles are F. Hawthorne's 2014 Roebling Lecture, A. Navrotsky's Invited Centennial Article, and the multi-authored *The origin and implications of clay minerals from Yellowknife Bay, Gale crater, Mars*.

Access to online MSA publications, including *American Mineralogist*, at www.msapub.org. Select the appropriate link based on your member of institution's subscription. If your institution subscribes to GeoScienceWorld (GSW), was ask that you preferentially use the GSW link.

Starting in 2016, each number of the *American Mineralogist* will publish monthly online. The print version will publish six times a year, each containing two numbers. The change will get authors published faster, allow readers more predictability when looking for new content, and smooth out the office workflow. This is a return to a monthly appearance of each number since July 1943, when material and shipping constraints during the war forced the journal from a monthly to a bimonthly appearance.

Members have access to the journal included as part of their membership!

New Publications

Elements v11 n2, April 2015, *Arc Magmatic Tempoes*, is online and in the mail. If your institution subscribes, please access the electronic version on [GeoScienceWorld \(GSW\)](http://GeoScienceWorld(GSW)), otherwise access it with your MSA USERID and password at www.msapubs.org.

For arc magmatists for whom the current issue of Elements is not enough, there is also Geological Society London's new Special Publication [*The Role of Volatiles in the Genesis, Evolution and Eruption of Arc Magmas*](#).

Rocks & Minerals [March/April 2015](#). Among other articles, *Who's Who in Mineral Names: Edward S. Grew*. (That's for edgrewite.)

Announcements/Reminders

Remember the June 1 deadlines for the 2016 MSA grants, awards, and honors: [Kraus Grant for Research in Crystallography](#) and [Student Research in Mineralogy and Petrology](#) grant proposals as well as [Roebling Medal](#), [Dana Medal](#), [MSA Award](#), [Distinguished Public Service Medal](#), and [election as Fellow](#) nominations.

Pore Scale Geochemical Processes short course - Design Elephant Hotel, Prague, Czech Republic, 15-16 August 2015. Organizers: Carl Steefel, Simon Emmanuel, and Larry Anovitz. [Description and registration](#).

MSA elections 2015. Remember to [vote](#).

AGI is offering **three free months of the digital edition of EARTH magazine** to all geoscientists belonging to one of its 50 member societies, like MSA. [EARTH](#) (formerly Geotimes) has been published since 1956 to inform

and unite the geoscience community. [Instructions](#) to sign up for free three months of EARTH in your favorite digital format. Current subscribers can get three extra months added to their existing subscription.

Geochemistry Software Free for Students - Aqueous Solutions LLC, maker of *The Geochemist's Workbench* (GWB), is distributing its geochemistry software to students at no charge. Full-time, degree seeking students can apply for a free one-year license to the Student Edition of GWB at www.student.GWB.com. The licenses may be renewed as long as student status is maintained.

Meetings

2015 GSA Annual Meeting & Exposition, Baltimore, MD, USA, 1-4 November. [List of sessions](#) and [abstract submission](#) now online. Abstract deadline: 11 August.

2015 AGU Fall Meeting Deadline to [submit a session proposal](#) is 22 April.

Euroclay 2015, Edinburgh University, 5-10 July 2015. [Registration](#) deadline is 1 June.
