## Celestial Earth Minerals & Mineral of The Month Club

May 2015

Dear David A.,

Take a look at the goodies we have in store for you this month.

[Click here for Newsletter](#)

## Quartz- Arkansas

photo representative of group 3  
in the Featured Mineral letter

### Featured Mineral:

Though Quartz may be a "common" mineral, our specimens are unique. Many of the points have bridges, or drusy fairy dust on them, some with inclusions if you are so inclined. Many of the specimens range from translucent to water clear. This rock-crystal variety of quartz is from the classic locality in Arkansas' Ouachita Mountains.

To read more about these specimens and their locality, [click here for write-up](#)

**Offering**

The minerals on the monthly offering are sure to please. Read the offering sheet for all the glorious details.

Hemimorphite- China

[click here for Offering Sheet](#)

Angelite- Peru

### **Coming in June**

The featured mineral in June will be will be the angelite gemstone variety of anhydrite that is only found in Peru. This mineral's color has a range of delicate blues that are often prized for use in jewelry and carvings.

It is the anhydrous form of calcium sulfate that we are sure will peak your interest and enhance your collection.

Blessings from Dimitri, Mary, Christine, and Lora,

Celestial Earth Minerals & Mineral of the Month Club
