Subject: New Acquisition - Vochten Collection

New Acquisition - Vochten Collection!

We are proud to announce the acquisition of the mineral collection of [Renaud Vochten](#) (vochtenite), Shilde, Belgium. Mr. Vochten assembled a very comprehensive collection numbering close to 12,000 specimens over the span of 67 years.

It was quite a job arranging for the packing and shipment of a collection this large. We are now working through the collection, sorting, cleaning, labeling, etc. and hope to have a lot of fresh material available at Tucson. Specimens are already being offered in the auction that closes Tuesday night; look for gallery updates with some of this material later this week. Specimens will also be available for viewing in St. Louis after the first of the year.

We hope that you enjoying looking over the material. There are some neat and interesting specimens to be available soon!

Calcite - Congo

1 of 14 crates shipped home

Some of the collection in storage

Silver - Kongsberg
