## New from Morocco

I've added a few excellent new specimens in this [Morocco Update \(click here\)](#).

This update includes some particularly fine and unusual pieces (a number are quite colourful), including a super azurite-malachite from the Tasalart Mine, Tafrout, exceptional quality fluorites from Sidi Said, hot pink cobaltoan dolomite and pink cobaltoan calcite from the Agoudal Mine in the Bou Azzer district, mirror-bright skutterudite from the Bouismas Mine and a beautiful, classic twinned cerussite from Touissit.

Hope you enjoy them!

## Canadian and US Dollar

The currency disparity remains significant in favour of the U.S. dollar these days. My usual reminder - prices on the website are in Canadian dollars (if you are thinking in - or used to browsing online minerals in - US dollar terms).

For all new specimens at McDougall Minerals, see [New Specimens](#).
