New Red Phantom Quartz

As you may have seen in my Tucson blog post, a recent find at Orange River, South Africa has produced some beautiful quartz crystals with exquisite sharp red phantoms. I've posted them in this [Red Phantom Quartz Update \(click here\)](#).

Red quartz has been produced from this locality for many years, however, long-time South African dealer Clive Queit told me he has never seen any he liked as much as the ones from this 2016 pocket, because these have such distinct red phantoms enclosed in sharp, clear quartz crystals – in his view they are the best.

Hope you enjoy them!

Canadian and US Dollar

The currency disparity remains significant in favour of the U.S. dollar these days. My usual reminder - prices on the website are in Canadian dollars (if you are thinking in - or used to browsing online minerals in - US dollar terms).

For all new specimens at McDougall Minerals, see [New Specimens](#).
