Subject: Auction Closing - Special Sale

Auction Closing - New Sale Items

We have now returned from a successful Denver Show. It was great to see everyone there! We have a lot of new material to add to the site, from new two collection acquisitions. We will begin getting these to the site within the next week. In the meantime, there are 80 new specimens in the Special Sale Section. Be sure to check these out. Items are discounted up to 70% off the original list prices. You can see these at: [Special Sale Items](#). Look for more special sale offerings later in the week as well.

This is also a reminder that the auction will close this evening at 7 p.m. eastern standard time. There are 150 great specimens for the auction this week. Some of the highlights this week include:

many good midwest U.S. calcite specimens from unusual localities
several showy Tsumeb smithsonite specimens
an outstanding and showy large cabinet erythrite from Mexico
pretty rhodochrosite from Colorado
rare and fine metatorbernite from Cornwall
large showy kidney ore hematite from England
a wonderful barite on calcite, very large and choice, from Ohio

Plus many others. Click on the [auction link](#) on our home page to see these.

Smithsonite -
Guchab, Namibia

Smithsonite - New
Mexico

Fluorite - Belgium

Rhodochrosite -
Colorado
