New From Morocco

I have posted excellent new specimens in this [Morocco Update \(click here\)](#). From a recent find at Mibladen, there are vibrant orange wulfenite crystals – the colour of these crystals is intense. I have also posted top quality blue barites from Jebel Ouichane – these are from about four years ago (this locality is no longer producing).

Hope you enjoy them!

Canadian and US Dollar

The currency disparity remains significant in favour of the U.S. dollar these days. My usual reminder - prices on the website are in Canadian dollars (if you are thinking in - or used to browsing online minerals in - US dollar terms).
