New Moroccan Prehnite

I've posted beautiful new specimens in this [Moroccan Prehnite Update \(click here\)](#).

Featuring clusters of sharp, lustrous crystals, these are from a recent find near Taza, Fès-Meknès, Morocco.

Hope you enjoy the update!

About COVID-19...

Despite COVID-19, Canada Post remains fully operational - shipping from Bancroft is no problem.

Canadian Dollar Lower

The currency disparity is even more significant in favour of the U.S. dollar these days. My usual reminder - prices on the website are in Canadian dollars (if you are thinking in - or used to browsing online minerals in - US dollar terms).

If you are receiving this email in any format in which the above link does not work, the addresses are:
